

GOVERNMENT TO RUN WHEAT BUSINESS

PROHIBITION IN FOOD CONTROL DELAYS ACTION

Thousands of Telegrams Are Sent Favoring and Opposing Bone Dry Feature

NATION AROUSED AS TO SIGNIFICANCE OF BILL

Act Up in Senate But Little Chance of Passage by July 1

TO CONTROL WHEAT TRADE.

Chicago, June 28.—Government plans for food control, according to a statement given out today by President Griffin of the board of trade, include absolute control of the wheat trade in all of its commercial aspects. There can be no speculation in it. Buying and selling of other grains, for present and future deliveries, will be unrestricted.

The millers, likewise, will come under the control of the food administration, and their wheat purchased and flour distributed under the same control, said Mr. Griffin.

The announcement brought the wheat market here almost to a standstill.

NO WORD RECEIVED.

Minneapolis, Minn., June 28.—“We have no official information as yet relative to government control of flour distribution and the purchase of wheat,” said the officer of a milling company here today. “However, we are expecting such information any day.”

Washington, June 28.—Not in years, according to several senators, has such interest in pending measures been aroused as is indicated by telegrams and letters on the prohibition clauses in the food control bill. Thousands of telegrams poured in on senators today, advocating and opposing the “bone dry” plan with a majority in opposition.

Hearing From Nation.

From farmers, merchants, labor unions, temperance societies and municipal officials, the senators are hearing, “the country” on prohibition. Wisconsin and New England are especially the sources of protest. Wisconsin farmers and agricultural organizations telegraphed today that thousands of acres of barley had been planted there in expectation of a continuance of brewing. Labor unions are emphasizing loss of employment from closing of breweries, and municipal officers, the loss of license revenue.

Many Protest.

A few telegrams were from individuals protesting against interference with their use of temperance malt beverages in habits of years’ standing.

Many telegrams of protest are in identical language, indicating organized opposition. Attorneys and other representatives of national brewing and distilling organizations are busy in the lobbies and offices, interviewing the senators. The “drys” are also active with leaders of the national anti-alcohol league engaged in personal solicitation of senators.

The bill was up for action in the senate to the first time today. It will be pressed for early passage, but its final action cannot be taken by July 1, on account of the prohibition provisions.

Coal Operators Agree on Prices

Washington, June 28.—The conference of 400 operators, representing all coal producing states, took quick action today for the lowering of coal prices by adopting resolutions authorizing their committees to give assent to such maximums for coal, “free on board” cars at mines, at the various districts, as may be named by the secretary of the interior, the federal trade commission and the council of National Coal Producers’ committee.

Plans were agreed on, to be announced later, today, for tentative “fair and reasonable” prices, based on suggestions of the operators, to be made effective July 1.

Will Save Millions.

An immediate general reduction of \$1 to \$1.70 per ton in the price of coal at the mines was agreed upon today by representatives of the coal operators.

This reduction is expected to be followed by further decreases in prices, after investigation into the cost of mining coal and it is probable that the government will be given a still lower price than the general public. Hundreds of millions of dollars will be saved to the American people through this decision.

JAMESTOWN COUNCIL KNIGHTS COLUMBUS TO BE INSTITUTED SOON

Jamestown, N. D., June 28.—A preliminary organization of the Knights of Columbus has been perfected in Jamestown and Tuesday, July 10, has been selected as the date for the institution of the new council.

Jackies Bring Baseball to Old England

Natural Diamonds Laid Out Near American Naval Base Prove Popular

ENGLISHMEN STILL LOYAL TO CRICKET AND SOCCER

A British Port, Base of American Destroyer Flotillas, June 28.—The baseball season is in full swing here. Every American destroyer has one or two teams and the two days weekly when their ship is in port are devoted to practice for the “big series” which is to begin next month.

Three diamonds have been laid out on the cliff overlooking the sea. There are no grandstands, although every game attracts a crowd of spectators from the ship and the towns. The teams wear regulation uniforms brought from home, with the names of their ships written in large letters across their chest. The crowd makes itself comfortable on the green behind the catcher or near the first base line, where the sea breeze is a little more brisk on a hot afternoon. The girls of the village, who probably heard of baseball for the first time when the destroyer teams began laying out the diamonds, are already developing into proficient and critical fans. The same can hardly be said for the menfolk, who attend the game because they like “the American boys,” but who frankly cannot see where the game compares in interest with football or cricket.

HEART IN WAR SAYS DANIELS AT ANNAPOLIS

Graduation of Third Class Advanced to Provide Naval Officers

CHIEF PROBLEM NOW TO HOUSE AND UNIFORM MEN

Annapolis, Md., June 27.—America is demonstrating to the world that a democracy of 100,000,000 persons can wage war efficiently and with unity of spirit. Secretary of Navy Daniels declared today in a commencement address to nearly 200 members of the naval academy’s third year class, whose graduation was advanced a year to provide officers for fighting ships.

“Those who prophesied that America would not go wholeheartedly into the war have been discredited,” he said. “The only divided councils have been as to the best methods to be employed. Our traditional policy has been against any but voluntary military.”

(Continued on Page Four)

WINTER WHEAT IS BEING CUT

Washington, June 28.—Harvesting of the winter wheat crop is well under way in all southern states and good progress is being made in the central district with oats and winter wheat. The winter wheat harvest is ten days late in Kansas, eight or more in Tennessee, North Carolina and Virginia and two weeks late in southern Illinois and Indiana. Co-operation between the departments of agriculture and labor has been arranged as to laborers at the farms where the crop is ready to be harvested.

Wilson to Order an Embargo TO STOP EXPORTATION OF FOOD TO NEUTRALS

By HARRY B. HUNT.

Washington, June 28.—An embargo forbidding all exportation of food stuffs from the United States to neutral nations, to stop the drain of vital war supplies from this country, will be ordered by President Wilson before the food bill passes congress.

The president has decided that there must be no further delay in conserving to the United States and her allies, for war purposes, every resource of the nation.

The embargo will be placed under authority granted by the espionage bill recently passed and will cover not merely foodstuffs but coal, iron, steel, lumber and every article needed, either directly or indirectly in the making of war.

There is very little that will not fall under the embargo, which will be announced in a presidential proclamation, setting forth the list of

This Is Kind of Town You Will Live In If You Are Selected for Service

View of Cantonment City of U. S. Marine Corps at Quantico, Va., a type of 16 others now being rushed to completion.

TOWNLEY KEEPS CONTRACT WITH I. W. W. SECRET

Bargain Made Between Head of League and Union Never Has Been Made Public

\$11.45 FAIR DAY'S WAGE AGRICULTURAL WORKERS

Just what is the agreement which President Townley of the league has entered into with the Agricultural Workers' union, farmers of the Slope, who are expected to ratify this contract at a meeting to be held here July 13 are asking.

No intimation of the bargain to which Townley has bound the 50,000 farmers whom he claims to control has ever been made public, except in a report of the Kansas City meeting carried by the “Industrial Worker,” official organ of the Industrial Workers of the World.

J. J. Hagan, commissioner of agriculture and labor, who was the head of the committee sent by Townley to confer with the I. W. W. auxiliary, may know, and as a state officer, elected presumably for the purpose of serving all of the people, and not A. C. Townley and Arthur LeSueur exclusively, it is entirely possible that it might be regarded his duty to the state to give publicity to this agreement, but he has not done so.

Inking of Agreement.

An inking of what the agreement may be found to be, after the farmers have ratified it, is found in another article in the “Industrial Worker,” which seriously presents the argument that with wheat selling at its present price \$11.45 the day is fair compensation for harvest hands.

“When wheat was selling at 50 cents a bushel, a number of years ago, harvest hands were being paid \$2.50 and \$3. the day. At \$2.50 a day the harvest hand could buy 1 1/2 bushels with his day's wages.

“Those were the days when the farmer did not ride in automobiles, a plow horse, hitched to a lumber wagon, was then good enough for him, but even in those days, the farmer could afford to provide his harvest hands with good beds, and he fed them at the family table,” says the official organ of the federation to which Townley seeks to bind the independent North Dakota farmer.

Citizen Soldiers to Be Made as Comfortable as Possible in Cantonment Cities

By GILSON GARDNER.

Washington, D. C., June 28.—The task of housing half a million soldiers while in training is now well started. Preliminary contracts have been let and the cantonments as they are called, should be ready by October.

A premium is to be paid for speed of construction. The army must be trained and it cannot be trained until it is housed. Therefore the building of these cities before the snow flies is more important than the saving of a few dollars.

Sixteen cities each of 40,000 population, are to be constructed in 90 days. This is some job. Each city must have its wooden houses, its streets, sewers, water systems, electric lights, railroad yards, water mains, garbage incinerators, amusement halls, storage structures and scores of other incidentals to the life of a military city.

Cost is High.

As much money will be spent in 90 days as the government spent on the Panama canal in a year.

The cities have been selected and most of them surveyed and laid out into their future streets, drill grounds, ball fields, freight yards and residence sections. In some instances the lumber and other materials are on the way.

Each cantonment will require about 4,000 carloads of material, and it is estimated 150,000 cars will be diverted from their usual business to take care of the cantonment work.

Each of these wooden cities will require 26,000,000 feet of lumber, or 1,325 carloads, one carload of roofing nails, 812 carloads of crushed stone for the roads, 28,000 squares of roofing, 20 carloads of miscellaneous hardware, 192 carloads of tanks, heaters, stoves, ranges, pipes, electrical materials, refrigerators and the like, 30 carloads of ties and other timber, 30 carloads of railroad spikes, rails, fish plates, 114 carloads of ballast, 10 carloads of electric light poles, wires, insulators, 12,000 cubic yards of concrete, and 175 carloads of sand.

The typical cantonment house is a wooden affair set up on posts about four feet from the ground, the peaked roof is about 25 feet high, and the floor of each house is about 25 feet wide and 125 feet long.

In most of the plans the men are to sleep in double-tiered bunks.

Each house has its little bookcase, wooden table and wooden dresser.

37,500 Bunks.

The window is screened with metal mesh screening.

Each city must have 37,500 separate bunks and mattresses which will require 125 cars to move them.

Each city will require 130 carloads of hospital equipment, three carloads of screens and 20 carloads of construction tools.

Each cantonment will contain about 1,000 buildings. The kitchen and the mess hall are separate from the living buildings, each company having its own kitchen and mess.

The government already has had some experience in rushing up these mushroom cities for the army. On May 14 the quartermaster's department received orders to have quarters ready on June 1 for 150,000 men. This meant the erection of 37,000,000 worth of new buildings at nine different posts. That work has been completed.

A typical city of this sort is located at Quantico, Va., where 8,000 marines are to make their home.

At one end of the cantonment site one sees the virgin forests, next he sees where the forest has been burned and felled, and next to this are the scanty and flimsy structures, the foundations of houses and their roofs, the houses in all stages of construction, with the completed products of the far end of the camp.

Three weeks ago his land was as “cant” John Smith's covered it. Soon it will be a city with paved streets, modern improvements and a teeming population.

HEALTHY GROWTH OF CITY SHOWN IN VALUATION

Assessed Worth of Bismarck Increased More Than Third-Million During Year

PAID ASSESSOR PROVES EXCELLENT INVESTMENT

An increase in assessed valuation of \$3,362,628 during the last year is shown by the first annual report of City Assessor E. E. Morris, presented to the city board of equalization in session at the commission chambers today. Bismarck's total worth as assessed today is \$2,555,629, as compared with \$2,219,003 one year ago. The actual valuation of the city is thus shown to be nearly \$13,000,000, as compared with approximately \$11,500,000 in 1916.

Items as assessed, compared with 1916, follow:

1917—	
Personal property	\$ 710,547
Real property	1,712,967
Railway, telegraph, telephone property	132,115
TOTAL	\$2,555,629
1916—	
Personal	\$ 487,750
Real estate	1,533,300
TOTAL	\$2,219,003

Money and Credits.

In money and credits Bismarck is assessed this year at \$38,101, which is at the rate of five per cent of the actual amount indicating that in ready cash and quick assets the form of credits the Capital City just now is worth about \$800,000.

Praise for Assessor.

This is the first assessment made in Bismarck by a paid full-time assessor. The work was done by E. E. Morris, who has been employed in this capacity from the first of the year, and the board of equalization is well pleased with the result. It is believed the assessment is more complete and more equitable than could have been obtained under the old plan, where the work must be crowded into a few weeks.

To Hear Protests.

The board will be in session from 9:30 to 11:30 tomorrow morning to hear protests if any be forthcoming, from property owners who feel they have been assessed too high or too low.

Aeroplanes Can Force Retreat

AMERICA HOLDS KEY TO WHOLE SITUATION

By BASIL M. MANLY.

Washington, June 28.—The German army will be forced to retreat across the Rhine as soon as the Allies, with the help of the United States, are able to establish supremacy in the air and put on the western front a fleet of 20,000 battle planes and bombing machines of the type which America is capable of producing in enormous numbers, says Commander J. W. Sisson of the British Royal Naval Air Service.

“Practically all the German army's ammunition food and other supplies must be brought across the Rhine. The great German munitions plants at Essen, Dortmund, Barmen and most of the other centers of the iron country lie beyond the Rhine, and every gun every shell they manufacture must cross the railroad bridges of the Rhine.

With 20,000 battle planes and bombing machines, organized in large squadrons, we would be able easily

American Soldiers Near Fire

Thousands of United States Troops Somewhere in France Ready for Trenches

FORCES WILL PROVE NET GAIN TO ALLIES

Washington, June 28.—Somewhere in France thousands of America's fighting men are today encamped, ready to take their places in the trenches beside the seasoned campaigners of the Allies.

Regulars and marines, fresh from active service on the Mexican border or in the West Indies, were landed yesterday after a voyage in which the German submarines were eluded and all records were broken for transporting overseas a large military unit.

News of the arrival of the troops sent a thrill through America, as it was generally unknown that any large detachment had departed from these shores.

The forces will be a net gain to the Allies, as the men will be fed, clothed, armed and equipped by this government. Already there are being stored at the front supplies sufficient for many months.

The American forces will be an independent unit, co-operating with the Allies. It has been suggested that the Americans might be placed as a connecting link between the French and the British armies, but the exigencies of the campaign will decide their position.

DUNN ADMITS HE CAVE MEN HUSH MONEY

Declares \$5,000 Paid to Keep Brown and Ferdig From Talking to Police

ST. PAUL MAN DENIES HE HIRED THEM TO KILL WIFE

St. Paul, Minn., June 28.—Frank J. Dunn, on trial in Ramsey county district court on a charge of procuring the murder of his wife, admitted on the witness stand late yesterday that he gave Al Brown and S. C. Ferdig, both of Montana, \$5,000 in the summer of 1915 to keep them from going to the police with a story that he had attempted to hire them to slay Mrs. Dunn. He emphatically denied, however, that he had ever approached Brown and Ferdig with such an offer.

Frank J. Dunn admitted on cross examination in his trial for wife murder today that he had visited on occasions the drug store to which Joe Redenbaugh confessed slayer of Mrs. Dunn.

(Continued on Page Three)

BILLIONS WASTED IN FORM REFUSE

Washington, June 28.—More than a billion dollars worth of farmyard refuse is wasted in the United States annually, which at this time is a national tragedy, according to Carl Vrooman, assistant secretary of agriculture, who in a statement issued today, urges its conservation as a war measure by American farmers.

The experts of our department have figured that at least half of the animal refuse all of which is available for fertilizer, is lost to agriculture every year,” said Mr. Vrooman.

To destroy every bridge across the Rhine as well as the railroad terminals on this side and cut the German army off from all their sources of supplies. And as fast as a bridge was rebuilt it would be destroyed. Tunneling under the Rhine would be a long and costly process and still would not solve the problem because the bombing of a tunnel exit or entrance would more effectively block transportation than the destruction of a bridge. The moment that the German staff saw this was even threatened the retreat across the Rhine would have to begin in order to save the army from the certain annihilation that would overtake it if left in the trenches without ammunition and food.

In the past, explained Commander Sisson, the Rhine has been a great military asset to Germany, but the moment the Allies are able to establish air supremacy the Rhine

PERSHING IS QUARTERED IN MILLS' HOME

New Yorker Puts Paris Residence at Disposal of American General

SUBURB OF LENS TAKEN BY CANADIAN FORCES

Operations Along West Front Confined Largely to Minor Infantry Attacks

CAPTURE SUBURB.

Canadian Army Headquarters in France, June 28.—Under a protecting concentration of artillery fire, Canadian troops early today captured the German front line before Avion, a suburb of Lens.

By this morning's advance, the British line has been carried forward to within one mile of the center of Lens.

The attack was made along a two-mile front. On the extreme left, Nova Scotians pushed their way to the Lens-Arras road, to the village of Leauvette. Here they took a number of prisoners. At the other end of the line east of the railway track, they bombed enemy dugouts there. The occupants belonged to the crack Prussian Guard corps, the Fifth Guard Grenadiers.

At daybreak, Canadian aeroplanes flying low over Avion, saw few Germans there.

Paris, June 28.—Major General Pershing left his hotel for a fine old residence in the Rue de Varenne so as to be near his headquarters. The house, which has a magnificent garden, formerly belonged to Prince Gortchakoff. It was leased before the war by Ogden Mills of New York, who placed it at the disposal of General Pershing.

The American commander was asked today to comment on General Petain's article entitled, “Why We Are Fighting,” published yesterday in the army bulletin. He said:

“General Petain's answer to the question is complete and logical. The facts set forth should convince the world of the justice of our great cause. I cannot think it possible anyone could hold a different view of why we are in war. It is quite beyond reason that anyone, knowing the truth, should fail to condemn the course pursued by the German government. There must be no peace except a lasting peace. The ideals for which the Allies are contending must be held sacred.”

CAPTURE SUBURB.

Canadian Army Headquarters in France, June 28.—Under a protecting concentration of artillery fire, Canadian troops early today captured the German front line before Avion, a suburb of Lens.

WAR SUMMARY.

(By Associated Press.)

Again the operations along the front in France are being carried out mainly by the artillery of the belligerents. The minor infantry activity is by patrols in which only small bits of territory have been attacked. In one of these attacks, the Canadians have occupied an additional trench astride the Lens-Arras road, but after another attempt they were repulsed, according to the German war office.

Reciprocal bombardments of artillery continue along the Alsace front, and in Champagne and there has also been a renewal of the big gunfire in the Avoncourt sector, northwest of Verdun.

In the Asiago plateau zone of the Austro-Italian theater the Austrian artillery has shattered positions taken recently by the Italians and recaptured them. The fighting was on Monte Ortigara and the Austrians asserted that they captured more than 1,800 prisoners.

Rome, in admitting the withdrawal of the Italians, says that the destroyed positions afforded no shelter to the Italians from the murderous fire of the Austrian artillery.

Lively fighting continues between the Russians and Austro-Germans on the eastern front, particularly in Galicia, south of the Tarnopol railroad and along the Narayuvka river. The operations on the Macedonian front continue of minor importance. There have however been several smart skirmishes and one attack by the enemy, preceded by a violent bombardment, against the French positions. It was repulsed.

ARREST CARDINAL

Amsterdam, June 28.—According to the Telegram, several priests of the entourage of Cardinal Mercier, prime minister of Belgium, were arrested recently in Germany and imprisoned. Twenty others, the Telegram says, have been imprisoned. Among them is Cardinal Mercier's private secretary, who was sentenced to a year in prison for preaching a sermon on Sunday on Christian charity.

Standing Rock Judge Holds Indians Were Right and Caucasians in the Wrong

Fort Yates, N. D., June 28.—Daniel and Clement Coldhand were cleared on trial of a charge of cold-blooded assault upon A. C. Hayes of Solon. The defendants were charged with using force in recovering some horses which had been taken up by Hayes. The court ruled that inasmuch as Hayes' action was illegal, the Indians could not be held for forcible recovery.

Luck Now Should
Attend Couple of
Newlywed Lucknows

Fort Yates, N. D., June 28.—Taylor, N. D., June 28.—Luck now should attend Mr. and Mrs. August Lucknow, wedded at the M. E. church. The bride was Mrs. Selma Lucknow. She was attended by her sister, Mrs. William Lucknow, and the groom, by his brother, Frank Lucknow.

TOBACCO HABIT
EASILY OVERCOME

A New Yorker, of wide experience, has written a book telling how the tobacco or snuff habit may be easily and quickly banished with delightful benefit. The author, Edward J. Woods, 1423 M. Station E, New York City, will mail his book free on request.

The health improves wonderfully after tobacco craving is conquered. Calmness, tranquil sleep, clear eyes, normal appetite, good digestion, manly vigor, strong memory and a general gain in efficiency are among the many benefits reported. Get rid of that nervous, irritable feeling; no more need of pipe, cigar, cigarette, snuff or chewing tobacco to pacify morbid desire.

Drowning Season at Height

Rugby Girl Goes Down in Shallows At Spring Lake

Rugby, N. D., June 28.—While wading out to bring in an old boat which had drifted a short distance from shore Miss Sophia Nygard was seized with cramps and drowned in Spring Lake, near here. Miss Nygard was with Dr. and Mrs. Collison, with whom she made her home, and Mr. and Mrs. Thomas Thorsen. At first when she did not reappear her friends thought she was hiding from them and paid no attention to her absence. At last they became alarmed and summoned help. After an all night search the body was discovered by a barbed wire drag in four feet of water. The young woman was just 21 and was popular socially in Rugby and Minot.

Boy Scout Drowns In Sight of Pals At Glenwood Lake

Enderlin, N. D., June 28.—Don Nix, 11 years old, member of a camping party of Boy Scouts in charge of Rev. Rasmussen, drowned in Glenwood lake when he leaped from a boat filled with companions to recover a lost oar. By the time Nix had recovered the oar the boat had drifted so far away that he was unable to reach it, and his associates were forced to sit helplessly and watch him drown. After a three days' unavailing search "Indian John," who has the recovery of more than 200 drowned bodies to his credit, was brought from Stillwater, and within a few hours he brought the corpse to the surface.

Are Sioux Best Citizens? Have No State Wards

Fort Yates, N. D., June 28.—Sioux county, the bulk of whose 2,500 people are Indians, is the only county in the state which has not a single citizen in the penitentiary or hospital for the insane. This agreeable state of affairs was revealed when the county auditor was called upon to look up some data relative to the county's criminal and insane.

Killative Touted to Make Killing as Big University Athlete

Fort Yates, N. D., June 28.—Killative, a young Sioux, who proved an all-around point getter in the recent boarding school field day, is being touted as a coming star for Carlisle. He is one of the finest finished athletes the reservation has produced.

GOES TO ABERDEEN. Rosstown, N. D., June 28.—Rev. E. J. Gilmore has resigned the pastorate of the First Baptist church to accept a similar charge at Aberdeen. He came here from St. Paul in 1914.

Dog Wanted to Join Colors—On Way to Ft. Lincoln When Found

Taylor, N. D., June 28.—When the Taylor boys left for the firing line at Fort Lincoln, Dr. Kammann's blooded bird dog was an interested participant in the farewell doings. The enthusiasm finally proved too much for the canine, which boarded the train, where he was not discovered by the troopers until Mandan was reached, when, much against his will, the canine volunteer was mustered out and returned home.

PLANS MEETINGS FOR FARMERS ON
I. W. W. BARGAIN

President A. C. Townley Will Seek to Convince League Reds Are Good Fellows

SESSION TO BE HELD IN BISMARCK JULY 13

A series of meetings through which President A. C. Townley hopes to convince league members that the Industrial Workers of the World will make good partners will be held in Minot, July 11; Valley City, July 12; Bismarck, July 13, and Devils Lake, July 14.

The deal by which President Townley seeks to bind the farmer to the Agricultural Worker union, an offshoot of Haywood's Industrial Workers, was announced some weeks ago. It has not met with the reception which Kaiser Townley hoped for it, and he hopes, through a typical series of league meetings to procure the adoption of stereotyped resolutions endorsing the I. W. W. auxiliary and approving the agreement entered into between Townley's hand-picked league committee—J. N. Hagan, commissioner of labor; F. B. Wood of Deering and N. E. Whipple of Beker—and a committee of the Agricultural union, with Arthur Le Sueur, attorney for the Industrial Workers, the Agricultural Workers and the league as go-between and principal fixer.

This agreement provides for: An 8-hour day. A \$4 minimum wage. A closed shop, meaning that farmers may not employ their own sons or other independent workers not affiliated with Townley's union. Time and a half for each hour's work performed over the standard day.

Double time for work on Sundays and holidays.

All disputes to be referred to the union for settlement.

The farmer to be bound strictly by union rules as to tools, manner in which labor shall be performed, minimum number of men to constitute a crew, and so forth.

This agreement, Mr. Townley announces, is to be ratified by a state convention of the league at Minot on July 11, and then will be ratified at three local conventions to be held as scheduled.

NEW WOLFORD BOARD LETS CONTRACTS

Wolford, N. D., June 28.—The school board has let contracts to Fjelseth & Johnson of Devils Lake for general construction work on a new school building to cost \$15,000.

GOULD DIVORCEE WEDS PRINCE OF ALBANIA

Mrs. Helen Kelly Gould Thomas is now the wife of a prince of Albania, according to cable reports. She was divorced from Frank Gould, the millionaire, and later became the widow of Ralph M. Thomas. The marriage took place in Paris. She received the bulk of the \$2,000,000 Thomas estate, besides \$100,000 from Frank Gould, and \$40,000 a year alimony since the divorce in 1909.

Girls Wanted to Canoe; Boys Wouldn't Furnish Lake, So Ladies Do It

Ashley, N. D., June 28.—When continued dry weather threatened to deprive them of their canoeing, and the necessary male adjuncts to that popular sport appeared helpless, the young women of Ashley reserved themselves into an

emergency efficiency commission, went to Hoskins lake and with their own fair hands lugged several tons of rock to the outlet and constructed a dam which will husband the waters and maintain the lake level at high water mark.

Fall From Load of Hay Seriously Hurts Farmer at Killdeer

Killdeer, N. D., June 28.—Falling from a load of hay under the wheels of his wagon, Morton Gordier lay unconscious in the road for several hours before recovering sufficiently to proceed to a neighbor's house for help.

OLD INDIAN FIGHTER HERE FROM MICHIGAN

New England, N. D., June 28.—A. N. Stevens, an old Indian fighter, who served with Uster in '65, and Mrs. Stevens of Perry, Mich., are guests of the latter's sister, Mrs. A. A. Ware. He was mustered out of service at Fort Lincoln just before the beginning of the campaign which ended in the Custer massacre in 1876.

Fiery Eczema and Skin Eruptions Readily Yield to This Old Remedy

Successfully used for fifty years. Eczema, and similar skin troubles come from a disordered, impure condition of the blood, and they can only be cured by giving the blood a thorough cleansing, and removing from it all traces of impurity. This is why S. S. S. has been used so successfully in hundreds of cases of Eczema and other skin eruptions. Specific Co., Dept. H Atlanta, Ga.

4 Times the Saving with Diamond Tires

Certainly, when you save in the first cost of a Diamond Tire, and add to that saving by its service, you will save four times as much by using four Diamonds.

Get Diamond Squeegie Treads—tough, stubborn rubber that actually outwears carriage-tire steel in abrasion tests.

Look at a Squeegie-Tread Diamond that has gone thousands of miles; and that the Squeegie Tread is still there.

Black Tread—Red Sides

DAKOTA MOTOR CO. BISMARCK, N. D.

MAY BUILD SCHOOL ON SOUTH SIDE WITHOUT NEED OF BOND ISSUE

The report made for the fiscal year ending June 14, of the Bismarck public schools, at the regular meeting last evening, shows a balance of \$49,846.96 in the treasury. Of this, \$29,846.96 is of the general fund; \$14,126 in the sinking fund; \$5,782.40, interest on bonds; and \$13 remaining of the teachers' insurance fund.

Members of the board were greatly pleased with the report and discussed the practicability of building the new south side school while funds permitted without having to bond the city for same. It was thought that enough funds would be available with the balance of the next levy.

The resignation of Capt. A. A. Jones was accepted and the vacancy was filled by the appointment of D. T. Owens for the unexpired term. George Will was re-elected member of the library board for a term of three years.

A resolution presented by the city

commission asking that the board assume expense of paving in Special School District No. 1, in paving district known as No. 2, was passed.

Miss Agnes Boyle was appointed as an additional teacher for the summer school during the balance of the term. After Schantz was appointed assistant janitor of the new high school building, under Mr. Couch.

Board members gave much of the credit of the fine financial standing of the schools to H. W. Richbolt and G. C. Wachter, who retire after serving a number of years. Mr. Richbolt has been president of the board most of his twelve years of service. G. C. Wachter, who has been a member of the board for the last eight years, also retires. The two new members, A. P. Lenhart and Cecil Burton assume office in July.

An adjourned meeting of the board will be held Friday, July 6.

TOWNLEY KEEPS CONTRACT WITH I.W.W.

(Continued from Page One)

Continuing in similar vein, the industrial worker says: "Today, the farmer gets \$2.75 a bushel for his wheat. If the price of labor were to be raised to correspond with the raised price of this commodity, the farmer would be paying \$11.45 a day for harvest hands this year without any more grumbling than when he previously paid \$2.50.

"Today, we find that the farmers are adverse to paying even \$5 during the harvest. In other words, the farmer wants \$6.45 more profit out of his worker than when grain was worth 60 cents a bushel.

"In addition to this, the harvest hand does not enjoy the conveniences and conditions of former times, despite the fact that he does far more, owing to the improved modern machinery used in the harvest fields.

"Machinery cannot alone harvest the wheat.

"Wheat cannot harvest itself.

"Human labor must be applied to the wheat before it is worth anything to society.

"Then why should not the harvest hand be entitled to a raise in wages proportionate to the increased price of wheat?

"The farmer dodges this issue by saying—there is more help than formerly—but if such is the case, why is the farmer so strenuously advocating the employment of school boys in the harvest fields and for general farm work?

"So Much Graft."

"The farmer's cultivation, per acre, costs him less than formerly.

"Beds for the harvest hands would not cost much more than in former times, so we find that this year in

DUNN ADMITS HE GAVE MEN HUSH MONEY

(Continued from Page One)

Dunn said he was taken by Mike Moore for the purpose of identifying her.

The visits were made April 15 and 19, Dunn said. Redenbaugh testified he could not keep his appointment with Moore at the drug store on the first date, but did see Dunn and his wife there April 19. Dunn declared his wife had made the engagement to meet him both times, but that their custom since there had been talk of reconciliation was to meet at other places.

It is said the case may go to the jury tomorrow.

Got \$5,000 Hush Money.

The two Montanans had testified for the state that Dunn had offered them \$10,000 to slay his wife, and that they compelled him to pay \$5,000 to keep them from telling the story.

In telling of his transaction with Brown and Ferdig, Dunn declared the Montanans had pointed out to him that they were four to one against him—that they and their wives would testify against him unless he paid them the money they demanded. He said he believed they were in earnest

and that they would send him to prison. So, he said, he gave Ferdig \$1,000 at one time and the two of them \$4,000 at another time.

No Dealing with McCool.

Dunn emphatically denied having any dealings with Joseph Redenbaugh, Frank McCool and Johnny Doyle through Mike Moore. He admitted that he had met Moore at a saloon, but denied that he ever had mentioned a proposition for the slaying of Mrs. Dunn.

Dunn broke down and sobbed on the witness stand as he detailed the events following the murder of his wife on the morning of April 26.

Cross examination of Dunn was not concluded when court adjourned for the day.

FLOOD SWEEPS OREGON TOWN OFF THE MAP

Baker, Ore., June 28.—The town of Rock Creek was practically swept away today when a 40-foot wall of water struck the town after a dam flooded Killam Lake gave away. Almost every building in town was destroyed. There is no communication, and it is not known if there was loss of life.

Overlooked Element.

"The three R's of writing poetry," began the fellow who knows almost everything, "are Rhyme, Rhythm and Reason, and of the three the last is most neglected.

Migratory Birds Protected.

The federal migratory bird law prohibits spring shooting of waterfowl and other game birds throughout the United States. The season is closed from February 1 to September 6, inclusive.

Enters Hospital—Mrs. J. L. Scully of Mandan has entered the St. Alexis hospital for treatment.

Dr. Strauss Returns—Dr. F. B. Strauss, who accompanied his two sons to Frankfurt, Mich., where they will spend the summer with their grandparents, has returned.

Sheridan County Visitors—States Attorney F. J. Temple, Sheriff Essig and the deputy clerk of court of Sheridan county were in the city Wednesday on official business.

Licensed to Wed—Marriage licenses have been issued to Harry O. Callaghan of Hazelton and Eliza Isabelle Clark of Umayak. Amos Robison and Pearl Jones of Bismarck.

Mandan Visitors—Among the Mandan visitors in the city Wednesday were Mrs. Rowley, Mrs. Charles Smith, James Regan, Stella Aughey, Anna Ouren, Mrs. Van Solen and Mrs. Archie Wilkinson.

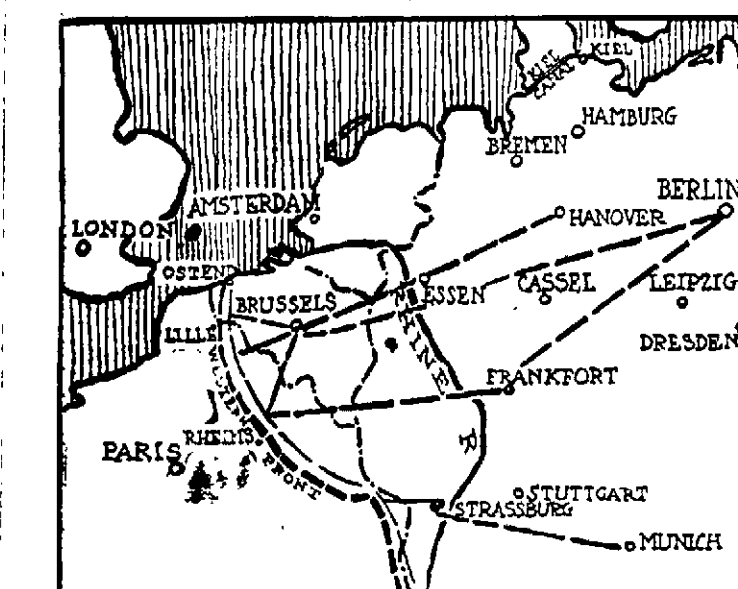

AEROPLANE CAN FORCE RETREAT

(Continued from page one)

becomes an enormous menace to the safety of the Kaiser's troops.

"And when they are driven back across the Rhine, Berlin and every other important German city will be within easy range of our bombing planes. What enormous damage could then be done by squadrons of 1,000 or even 100 bombing planes is illustrated by the terrible destruction of life and property by the 17 German airplanes which visited England a few days ago."

"Is it your judgment," I asked Commander Seddon, "that we can produce the battle planes in sufficient numbers to achieve even part of the wonderful results you have outlined?"

Map showing how all supplies for German army must cross Rhine and could be absolutely cut off by destruction of railroad bridges with bombing airplanes.

NOTICE TO THE PUBLIC

Owing to the June rise and turbidity of the river water at this time, all water for drinking purposes should be boiled.

BROTHERS SENTENCED FOR GRAND LARCENY AND JAIL DELIVERY

Brothers, aged 17 and 18, from Skogmo, Sheridan county, were arraigned before Judge Nussle yesterday, on a charge of grand larceny and jail breaking, found guilty and sentenced to spend the remainder of their minority in the state training school at Glendon.

The direct charge against the youngsters was that of breaking into a store at Skogmo and extracting \$25 from the cash register. Other mis-

deemeanors are attributed to them. They capped the climax of their criminal career when they broke jail at McClosky last Sunday evening, while being detained there pending their appearance before Judge Nussle. Sheriff Essig discovered their absence soon after their escape and overtook them two miles out of town. States Attorney F. I. Temple of Sheridan county appeared here as prosecutor, and Sheriff Essig came down in charge of the boys.

ORRIS W. ROBERTS, Meteorologist.

IT IS JUST FINE. The final figures on the Liberty Loan are enough to make every honest patriot thank God and go out and salute the American flag.

The subscribers to bonds for \$50 up to \$10,000 numbered 3,960,000, and their subscriptions totaled \$1,296,684,850.

Thus, about 50 per cent of the grand total was subscribed by people of small or moderate means, people least embarrassed by the fierce uncertainty as to special war taxation. What we will do, with that uncertainty removed, Mr. Kaiser, will sure be plenty.

The American pacifists, if any, can put it in their diary that the American pocketbook is aroused, anyway.

MERE MAN, LOOK HERE! Attorney Charlotte M. Jones of San Francisco declares that, after the war, "polygamy will not only be sanctioned, but will be the means of establishing the supremacy of women in governing the world."

"Way off, Miss Charlotte! Masculine nature won't stand for it. The fellows now being run by one wife have plenty, and the fellows with one wife who isn't running them won't take any further risks. And making polygamy justified merely for promotion of breeding will get kicked all over the world by woman herself. Some other method for woman's getting control of the world will surely have to be found.

"Man," adds Miss Jones, "is likely to be reduced to a mere parental factor." Gents not yet so reduced will please stand up. Be careful not to trample upon each other.

THIS MIGHT BE TRIED. There's a pretty considerable sprinkling of gents who are at a loss as to what to say to her, occasionally. Sometimes the occasion arises early in the morning, when there's urgent necessity to draw her attention away from the prevailing odor of cloves, or coffee beans, or mint. On other occasions there's natural soul-pressure that inspires verbal expression of her qualities. To all such gents, we contribute the following speech by a member of the Florida legislature, when the bill for woman suffrage was up. Commit it to memory, and if it doesn't get her, nothing remains but to trust in the Lord and take what's coming to you.

When God made woman he sent his angel messengers throughout all the starlit realms of space to gather all there was of beauty, brightness, enchantment and divinity. When those angels had returned from their harvesting of beauty and laid their glittering burdens at His feet, He began in their presence the work of fashioning her.

"He wrought with the gold and the glow of the star-shining glories of a rainbow's hues and the pallid silver of a southern moon.

"He wrought with crimson perfume that swooned in the rose's rubied heart, with pure, sweet snow aglitter from the lily's white crest and the fires and flames that like flashes leap from the jewel's depth.

"Then, gazing deep into His own bosom, He took the love which gleamed there like some rare pearl beneath the wind-blown waves of a summer sea, made this into a human form, and all heaven bowed its head and veiled its face, for lo! He had wrought woman."

an's suffrage. But that doesn't matter. His speech is full of possibilities of great usefulness, and the point is to give it wide-spread publicity, so that it may reach the needy. We have no hesitation in saying that this detailed account of woman's creation may touch the spot when that old rib story would be completely ineffective, even dangerous.

OPPORTUNITY FOR THE CHURCH. Rev. Charles Stelzle, evidently thinks that the churches should be more decidedly militant. He urges that they encourage enlistment, promote the raising of war funds, preach self-denial and inspire, in every way, enthusiasm for warfare.

He is positively right. There never was stronger reason for churchmen to take up the sword. Christianity, in so far as it stands for human progress toward heaven, is threatened. Jesus (Christ) gave his life for liberty, equality and fraternity, and for these no modern churchman should hesitate to offer his life, or anything else that is his.

But, isn't this war the great opportunity for rejuvenation of Christianity and regeneration of the church?

In late years, we have heard much about the powerlessness of churches, the empty seats in churches and the general trend away from church influences. Even in our legislation, or rather, lack of it, the holiness of the Sabbath and other divine institutions has apparently been wearing away. Such beautiful observances as the blessings at meals and the family readings of Scripture are, comparatively, rare. And all this dissatisfaction with and disappointment in church influence has been attributed to the fact that the church was not close enough to the intimate affairs of the people.

If it is true that, for this reason, the populace has lost interest in the church, what a tremendous opportunity for the church to rehabilitate itself now offers! In promoting enlistment, Liberty loans, Red Cross work and self-denial, the essentials of this war, the church must get right down into the very family life. "Love ye one another." This means equality, justice, freedom, fraternity—Christianity. The time has come for churches to fight for it, lest it be smothered by barbarism. They have cause enough, and, with it, the churches ought to see their own glorious opportunity.

Cuckoo Calls and Wedding Rings. For a girl to dream of hearing the cuckoo is said to be a means whereby she may ascertain how many years will elapse before she will wear a wedding ring. The number of years will answer to the number of times the bird is heard calling in her dream.

HEART IN WAR SAYS DANIELS AT ANNAPOLIS

(Continued from Page One) tary service. When conditions demanded the selective draft was written into the law. Ready Response. "Congress authorized the issue of two billions of bonds for the war's prosecution. The croaking of a few pessimists was drowned by a multitude of voices offering hard won savings as freely as surplus wealth. Up on the heels of this unprecedented movement the Red Cross society launched a campaign to raise \$100,000,000. More was given than was asked."

Writing Taxing Measure. "Congress is now engaged in writing a taxing bill. There is no division in congress, except as to the sources of taxation and the people will pay without protest, whatever it may cost to carry this war to a successful conclusion. In the navy and in the marine corps, the chief problem has been to house and uniform and equip the thousands who flocked to the standard. The army is securing all the men who can be trained. "We do not hate the people we are to fight. We hate only the autocracy which harnesses them to the juggernaut. Our victory will not only make the world safe for democracy; will not only end the fiction of divine right, but will bring to the German people hope for the day when they will no longer be the pawns of militarism."

DOUGLAS FAIRBANKS TONIGHT AT ORPHEUM. More thrills than usual are promised in the new "Triangle-Douglas Fairbanks play, "American Aristocracy," which is to be seen at the Orpheum theater tonight. The strenuous star drives a hydroplane, escapes from the roof of a speeding auto by grabbing a wire suspended across the road and performs other Fairbanksian feats in plenty. A special added feature to the program will be "Zeppelin Attack on New York."

The big Zeppelins are shown on their majestic course across the sky as they come over the sea laden with bombs for New York, today the world's richest city. The big city is shown darkened and the harbor lights extinguished, as all Manhattan island holds tight and waits. A bombing aeroplane is shown, scout aboard, as it soars off into the upper air.

There is a battle in the night blackened sky. The Zeppelins are seen dropping their bombs of fire and explosives on the great skyscrapers of lower Broadway. Then comes a hit. A Zeppelin is blasted to bits, burns in air and crashes to earth a cindered mass. Victory for the defenders. If you wish a seat tonight you will have to go early.

NEW SONG RINGING THROUGH THE DAKOTAS

Throughout the states Uncle Sam's troops, as they march to duty, are whistling and singing the strains of a new ballad which is destined to exceed the fame of the whistling "Tipperary." The song bears the simple title of "Indiana," and many affirm that it is even more inspiring than the British-Celtic craze of several months ago. The chorus runs thus:

INDIANA

Ballad MacDonald, James F. Hanley.

Back home - gain in in - di - an - a.

And it seems that I can get the same.

I can die light still shining bright Thro' the

eye - a - more for me... The new move

ment, sends all its in - grates from the

fields I used to roam, When I dream - a

bout the moonlight on the grass Thine I

Copyright 1917.

The song was written by Ballard MacDonald, who penned the famous "Trail of the Lonesome Pine." The music was created by James F. Hanley. There is a sort of fascination to

the text and tune, the chorus of which comprises a musical quotation of "On the Banks of the Wabash."

MENOKEN. Rev. E. B. Johnson of Canada, a Baptist missionary, is holding meetings in the hall. While here he is being entertained by Mr. and Mrs. Lee Dralle.

The ladies saw every Thursday afternoon for the Red Cross society. Everybody is asked to do her part. The time set is 2:00 p. m., in the hall.

The Christian Endeavorers has a beautiful day Saturday for their picnic. They served a fine dinner to a large crowd at Apple creek. Sunday evening, the Stewartdale choir met with Mr. and Mrs. Stewart for evening services. The choir is composed of young ladies and men from in and around Stewartdale.

Senator C. D. King and A. T. Welch finished collecting for the Red Cross fund Friday night, and \$935.50 was realized from Menoken and vicinity. W. R. Allinson and C. D. King left Tuesday for Minneapolis with two cars of stock.

The Menoken Farmers' Co-operative association will hold its annual meeting Saturday in the town hall. Mrs. V. M. Craven and son autoed to the capital city Tuesday.

Mr. and Mrs. B. B. Woodward of Bismarck visited with Lyman Harris and family Monday.

Lawrence Agnew autoed to Bismarck Tuesday.

A. V. Anderson, William Nelson and

A. T. Welch are putting in their winter supply of coal. John Craven and wife took dinner Sunday with home folks.

Highway Work—C. J. Estlund, assistant state engineer, is making detail surveys on road projects recommended by the state highway commission for federal aid in Cass county. J. C. Jansson is similarly engaged in Williams county, and J. M. Hanson began work in Traill county today. These three projects are the first to be accepted by the highway commission for state and federal reward.

School Officers Meet—Mrs. N. C. Macdonald has returned from Steele, where she conducted a round table on school laws and administration for the Kludler county school officers.

IN THE WORLD OF MUSIC

PATRIOTIC MUSIC THAT EXPRESSES THE SPIRIT OF AMERICA

National Songs Have the Place of Honor in the Musical Offerings of the Month

The approach of the glorious Fourth is always the occasion for an outburst of patriotic music, but this year our spirit of patriotism has already been stirred and it finds expression in numerous songs which help to inspire renewed devotion to our country. The July offering of new Victor Records includes not only some of our national songs that are dear to every American heart, but new popular songs of America inspired by our entrance into the world war.

"America" as sung by Clarence Whitehill is truly a song of liberty. His performance is a wonderfully dignified interpretation that conveys the full force of its broad majestic character. The splendid old hymn of the "Republic" presented by Reinold Werrenrath in his rich and virile voice with splendid fervor and patriotism, and Lambert Murphy and the Orpheum Quartet contribute a stirring rendition of "Columbia, the Gem of the Ocean."

"My Own United States" sung by Raymond and Dale Quartet is a welcome return of the most popular number in the light opera. When Johnny Comes Marching Home: the words are brimming over with love of country, and the music is forceful and direct. The splendid patriotic song, "We'll Never Let Our Old Flag Fall" is finely sung by Edward Hamilton and Male Quartet. "The Home of Every Boy to be a Soldier" is another stirring patriotic number, sung by Charles H. Hart, and on the reverse is "What Kind of an American Are You," a rattling good marching number with plenty of spirit and dash. There are also a number of patriotic selections read with vigor and clearness by William Sterling Battis.

The Central American Marimba Band contributes new selections: "Captain Betty," a dainty and graceful one-step, and "Kiss Me" another one-step with a brisk gaiety which is most attractive. The Victor Military Band presents new selected dance dances in the form of eight attractive medleys, equally divided between fox trots and one-steps. Pietro is on hand with his accordion and gives a crisp and spirited performance. "Under the Double Eagle March," a remarkable rerecording of his own composition, "Heart Echoes," which he plays with astonishing virtuosity.

Thoroughly Italian Song by Caruso

A wonderful combination of Italian genius is presented in a new Caruso record in the Victor lists. The words are by D'Annunzio, the foremost Italian poet; the music by Tosti, unquestionably the foremost song composer Italy has produced in our own times; and the great Caruso sings this beautiful Italian number as he alone can. Those who have long been acquainted with that charming piano solo, "Simple Confession," will be glad to hear it as a vocal selection—it is rendered by Frances Alda with unaffected grace that will win all hearts. Giuseppe DeLuca sings beautifully the aria, "Is It Thou?" one of the loveliest melodies in the musical repertoire. And it is a delight to hear this great Italian as he delivers each musical phrase with such easy grace and finish. Emilio de Gogorza gives a captivating rendition of the favorite "Santa Lucia." His interpretation of the song is particularly noticeable for its freedom and enthusiasm. The record of Handel's "Largo," by Louise Homer is one that will be thoroughly enjoyed.

joyed by all true music-lovers. Her voice, so rich in quality, is just the voice for the broad and massive dignity of this superb air. "The Old Republic," a number familiar through the record made by Fritz Kreisler, makes a beautiful song for Julia Culpe to sing and she gives it with exquisite tenderness and expression. Another Galli-Curci is heard in the Laughing Song from Ambler's Marion Lescut which she sings beautifully. With Galli-Curci one never knows which to marvel at most—her remarkable control over an amazingly beautiful voice, or her equally remarkable abandon to the spirit of the music. Giovanni Martinelli presents a rarely beautiful interpretation of the lovely aria, "Wild My Dream of Youth" from the second act of Traviata.

Kreisler Plays Esquillo Solo

The heavenly sweetness of Schubert's music finds an ideal interpreter in Fritz Kreisler, and as he plays a violin solo of the Ballet Music from Rossini's "Cendrillon" on a new Victor Record, he appears to be filled with the spirit of the music. His interpretation of the lovely aria, "Wild My Dream of Youth" from the second act of Traviata.

Two favorite hymns, "What a Friend We Have in Jesus" and "That Sweet Story of Olden Days" are new additions to the Victor lists of sacred music. The former being sung by Mr. and Mrs. William Wheeler and the latter by Elsie Baker. The first of a series of story-records by Sara Cone Bryant are presented this month, and while they really belong to the children they will also be a joy to the parents. The same thing can be said of the two records of the famous March Birds, given by Charles Kellogg in his curious "bird voice."

There is plenty of Oriental color in the popular song "Hong Kong" rendered by the Orpheum Quartet. "I've Got the Sweetest Girl in Maryland" is a good lively number by the American Quartet. Edna Brown sings "For You a Rose" an appealing song, somewhat in the style of "Poor Butterfly," and a charming sentimental song, "A Wonderful Thing" which has a gentle swaying rhythm that is most attractive. In the Victor lists, presents "Take Me Back to Babylon" and a pretty love song "If I Were King of Ireland," which is well adapted to the voice of the fully sympathetic quality of his voice. "That Girl of Mine" is a spirited number by the Sterling Trio, and Charles Harrison contributes a splendid record of "All the World Will Be Jealous of Me," a song in slow waltz time, and the refrain is played as a violin solo with fine effect.

There is certainly variety enough in this Victor entertainment and it is all worth hearing. And the desire to hear it can easily be gratified at any Victor Dealer's.

SOCIETY

Y. W. C. A. Giving Free Course in Telegraphy

Through the co-operation of the Western Union Telegraph company, the Fargo Y. W. C. A. will be able to give a free course in telegraphy to any girl over 16 years old. The company has furnished the association with equipment for instructions and it is expected that the class will begin next week. Twelve young women have already enrolled.

The association, through its general secretary, Mrs. Bessie Zickeloose, is arranging to give instructions four nights a week, in addition to the day classes.

American Club Women Doing War Relief Work

In a bulletin recently issued by the General Federation of Women's clubs states that reports of war work done by women are coming into the federation headquarters from every state, town and county in America. The reports indicate that all of the 2,000,000 club women are doing Red Cross work, studying and practicing efficiency and conservation in the home and taking up in addition the question of Americanizing the alien or the training of women for new kinds of labor.

The Woman's Farm Managers of Iowa, an organization comprised of women who personally superintend their own farms, has recently voted to join the federation. The president is Mrs. Nellie Richardson, mother of Dr. Florence Richardson of Drake university. It is said that 16,000 women own farms in Iowa.

The superintending of the general federation war work is in charge of the emergency service committee. One of the important measures of the federation is the getting of women to sign the pledge for food economy.

W. R. C. Meeting. A meeting of the Woman's Relief corps will be held Friday afternoon at 2:30 in the Commercial club rooms. The corps has decided to hold all meetings in this place.

League to Meet. The Luther League of the Swedish Lutheran church will hold its regular meeting this evening, in the church parlors, Seventh street and Avenue D. A cordial invitation is extended to anyone desiring to attend.

Time to Deliver Donations. Members of the Woman's Auxiliary to Company A who are in charge of the big feed for the soldiers at Masonic temple on July 4, are asking those who are donating cakes pies and other delicacies to deliver same at the temple between 9 o'clock and 5:30 the afternoon of July 3. The women are receiving many substantial donations.

To Serve Ice Cream. Ice cream and cake will be served on the lawn of the H. W. Richholt home on South street by the third division of the Ladies Aid society of the Methodist church instead of a supper as previously announced. The division met this afternoon with Mrs. Richholt.

Officers Elected For Year. At the seventeenth annual convention of the women's missionary societies of the Evangelical association, held this week in Clear Lake, these officers were elected: President, Mrs. H. G. Wegner, Bigstone, S. D.; vice president, Mrs. Mary Teichman, Fargo; recording secretary, Mrs. C. F. Strutz, Bigstone; corresponding secretary, Mrs. William Suckow, Bismarck; and treasurer, Mrs. G. H. Howalke, Groton.

Appetite Finicky and Fussy? Tempt it with a light, nutritious food that helps you to shake off the shackles of a Winter diet. Eat Shredded Wheat Biscuit with berries and cream or milk. Two or three of these Biscuits with fruits and green vegetables make a nourishing, satisfying meal at a cost of a few cents. Ready-to-eat—no cookery, no kitchen worry.

Ex-Governor's Son Weds Canadian Girl

A wedding of unusual interest has been announced, that of Edwin Lee White, son of ex-Governor and Mrs. Frank White of Valley City, and Miss Christina Black of Clifford, Ont. Their marriage was an event of Saturday last, in the home of the groom's parents, and was a brilliantly appointed affair. Rev. Willard C. Lyon of the Congregational church read the service, at 9 o'clock.

The bride wore an exquisite gown of white georgette crepe, ornamented in lace, and carried a bouquet of bride's roses, showered with valley lilies. The wedding music was played by Miss Josephine Wright. A wedding supper supplemented the service.

The bride and groom are graduates of the Valley City normal school and have a wide circle of friends in the state. Mr. White and his bride are enjoying their honeymoon at lake points in Minnesota. Among the out of town guests were Mrs. Edward Cox and Miss Blenda Anderson of Bismarck. President and Mrs. C. A. Farland and Miss Dorothy McFarland of Valley City were also guests.

Returns From Business Trip—F. L. Konkila of the Provident Insurance company returned Wednesday night from a business trip to Mohall and Minot.

Concludes Visit Here. Mrs. J. E. Stevens, who has been the guest of Miss Tess Henry of this place for several days, returned today to her home in Valley City.

To Leave For East. Mrs. C. A. Baker of the Person court and sister, Miss Hazel Stevens, will leave Sunday for New York city, where they will make an extended visit.

To Join Husband. Mrs. H. J. Forsyth and two children of this place left Wednesday for Hammond Port, N. Y., to join her husband, who is in the government aerial service.

To Form Organization. Young women of St. George's Episcopal church will meet Friday afternoon at the parish house, to complete the formation of a new church organization. Preliminary plans for the organization were made at a meeting held last week. Rev. George Bunzels, the rector, will meet with them.

To Reside Here. Abraham Woolf of Minneapolis and Miss Lillian A. Deason of Sauk Rapids, Minn., recently married in this city and who are now enjoying their honeymoon at Minnesota lakes, will make the capital city their home. Mr. Woolf formerly engaged in business in Van Hook, has formed a partnership with Charles Olson of the System Cleaning establishment in Third street. Mrs. Woolf formerly taught in the public schools of Wadena and has many friends during her residence in the state. They are expected to return to Bismarck the latter part of next week and will be at home to their friends after August 1.

Personal Notes. Miss Catherine McGarvey of Second street will leave Saturday morning for the twin cities, where she will be the guest of Miss Mabel Quilling, a former resident of this city. Miss Agnes Lettler of the St. Alexis training school for nurses is spending her vacation with friends in St. Paul. Miss May Verville, another student, has gone to Wabasha, N. D., for a visit with her parents. Miss Gertrude Belthorn of Thayer street and Miss Evelyn Swain of this city will leave the first of the week for a three weeks' sojourn in Fergus Falls, Mill Lake and other Minnesota points.

Miss Clara Sptzer of Thirteenth street will leave the first of the week to spend her vacation at Detroit Lake. Mrs. August E. Johnson, Miss Louise Johnson, Hugh Johnson, Karl Klein and Emmet Klein of Washburn motored to the city Wednesday, where they spent the day.

Miss Ruth Sullivan of Minneapolis has arrived in Mandan to spend several weeks with her parents, Mr and Mrs. J. O. Sullivan.

Mrs. P. B. Webb and two sons, Philip, Jr., and Oliver, Miss Boniface Morris and Mrs. W. E. Breen of this place motored to Jamestown Tuesday, where they were the guests of the latter's sister, Mrs. Philip Mason.

Miss Dorothy Lincoln has returned to her home in Bowman from a visit with friends at Detroit Lake and Fargo. Miss Lincoln expects to spend part of her vacation in this city as the guest of her sister, Mrs. W. F. Crewe, of Avenue A. She is a graduate of Valley City Normal school.

Mr and Mrs. C. C. McLean of Mandan were guests Wednesday of the former's mother, Mrs. Mary L. McLean, of First street.

Mrs. I. R. Eldell of Helena, who has been the guest of her brother-in-law, Joseph Hare, of Main street, returned home Tuesday. She was accompanied by her niece, Miss Grace Hare, who will make an extended visit with her.

Will Act as Chairman of Local Committee Work at Request Nathan Strauss

A Rosen, one of Bismarck's leading merchants, received a request today from Nathan Strauss of New York city, asking if he would accept the chairmanship of the Bismarck committee which has been organized in this city as an auxiliary branch to the national committee for the raising of funds to assist in the relief of the thousands of Jews in Europe who have been placed in dire need through the effects of the present world war.

NOTE THE POCKETS

By BETTY BROWN. New York, June 28.—The "bowling pin" rules the mode in fall coats. A handsome model shows how the width of the hips may be properly emphasized by an ingenious arrangement of the pockets.

As chairman of the local committee he will immediately call a meeting and, under his personal supervision, the work to be done will be mapped out, plans formulated and teams organized. A goodly sum of money is expected to be raised in Bismarck and vicinity in a very few weeks, which will be forwarded to the treasurer of the national committee in New York city.

Eliminates the Heat. By using two slightly separated lenses and passing a current of air between them a French scientist has succeeded in freeing the high power light of motion picture projectors from heat.

Substitute for Fountain Pen. Spring clips to be fastened to an ordinary pen, enabling it to hold a considerable quantity of ink and to perform the functions of a fountain pen, have been invented.

By BETTY BROWN. New York, June 28.—Just because lingerie makes the coolest looking of displays, the shop windows seem to flaunt heaps of delicate lace and soft tissues on the hottest summer days. After a review of the same one concludes that there is still a big demand for the most exquisite and elaborate undergarments. Nevertheless, the prophetess says that the day of plain and practical petticoats, gowns and chemises is near at hand. Just for

this reason, women are satisfied with the sheerest materials and an abundance of full frills. Petticoats always imitate the lines of the outer garment. And as the struggle between designers and the shadowed by France is not yet over, the shops supply ruffled petticoats as well as soft and simple models. For the soft petticoats, taffeta is

preferred, for the soft styles, satin finished and washable silks are liked. Many of the more elaborate petticoats are of georgette crepe. Tulle silk petticoats are among the summer novelties. The shadow proof has a double front and back panel. Some of the newest petticoats are attached to fitted brassieres because the present tendency of gowns is toward the princess type.

Douglas Fairbanks Again

"American Aristocracy" is the title of the latest TRIANGLE PLAY in which this popular star appears. It's great—even better than his others if that is possible. You'll want to see it. Here to-night.

INSTITUTIONS TO BURN MANY TONS LIGNITE

\$62,800 Invested in Native Coal by Board of Regents—Other Contracts Let

STUDENTS WILL EAT BIG BATCH OF FOOD STUFFS

The patriotism of state educational institutions was proven this week when contracts for \$62,800 worth of native lignite coal were awarded by the board of regents to the Washburn Lignite Coal company of Wilton and the Tripp Mining company of Nonan. Some eastern bituminous coal was also purchased for institutions not yet thoroughly familiar with the virtues of native lignite, and \$17,500 was invested in this fuel making the state's annual heat bill for its educational institutions something more than \$80,000.

Many Groceries. The next largest item in contracts awarded this week was groceries, totaling \$30,000 for the year. The board

bought \$12,000 worth of canned goods; \$5,000 worth of hams, bacon and lard and \$7,000 worth of flour, which will be consumed by students patronizing the boarding houses maintained at all but one of the educational institutions. Printing, totaling \$30,000, is an important item, and one that might be considered insignificant, disinfectants and soaps, amounting to \$7,000, while \$2,000 was invested in brooms, brooms and paper towels; \$2,000 in linens; \$2,800 in hardware; \$2,500 in stationery and \$1,000 in crockery.

Printing Contracts. Contracts for all stationery, except specialties, went to Walker Bros. & Hardy at Fargo. Printing contracts were awarded as follows: Agricultural college, Knight Printing company, university, Page Printers, Valley City, Times Record and Courier; Mayville, Tribune, Minot, News; Ellendale, Leader, Wahpeton, Globe-Gazette, Bottineau, Conant and News.

Grocery contracts for the university and Mayville normal went to Nash Bros., Grand Forks, the Fargo Mercantile company contracting for all the other institutions. The Cudahy company and Armour & company were successful bidders on hams, the Hormel company on bacon, the Fergus Packing company of Fergus Falls on lard, the Russell-Miller Milling company on flour. Hardware, linen and crockery contracts went to local institutions.

EQUITY FARMERS HAVE BIG MEET AT BRADDOCK

Braddock, N. D., June 28.—A highly successful all-day picnic and conven-

Mary Pickford, Star of Movies Here Tonight

The star system is one that has recently borne the brunt of considerable criticism in motion pictures. How to offset this criticism is a problem that has given many producers acute headaches. Now comes Mary Pickford, the foremost star of them all, with what appears to be a thoroughly satisfactory solution of the entire problem. She says that a star is known by the company she keeps, and to prove it has assembled for her newest production one of the most notable casts of supporting players ever seen on the screen of a motion picture theater. Such well known players of the legitimate and motion picture stage as David Powell, Frank

Losee, Mary Alden, Mario Majeroni, Cesare Gravina and Mercita Esmond are prominent in the cast.

It is a coincidence that this cast has been assembled for "Less Than the Dust," which will be presented by Artcraft Pictures corporation this evening at the Auditorium theater. This is the first Mary Pickford play to be released since the famous star said farewell to the program system and decided to make productions independently, whenever she found a story that exactly fitted her and with more attention to detail than is possible under the clock and calendar method of making pictures at so many feet a day.

tion was held here yesterday by members of the American Society of Equity of this vicinity. The principal address was delivered by George N. Keniston, secretary of the Bismarck Commercial club, who talked interestingly on the local field of farm marketing. All of the country people brought well filled baskets with them, and there was a big picnic dinner at noon. It is estimated that more than 200 actual farmers attended. So successful was the meeting that it is planned to make it an annual event.

"A Zeppelin Attack on New York," at the Orpheum tonight

St. Alexis Notes—Among the recent patients to enter the St. Alexis hospital are: Mrs. Fred Juber, Paradise; Carrie Klundt, Parshall; Martin Johnson, Washburn; Julius Hurlinger, St. Anthony; S. H. Tibbits, Wilton; Anna Oluck and baby Oluck, Benedict; Mrs. W. J. Corrigan, City; Ida Gustine, Flasher; Mrs. H. H. Kroger, Youngstown; A. C. Beebe and twin daughters. Those to leave the hospital were: Mrs. T. J. Lynch, Wibaux, Mont.; Mrs. Pauline Reabe, New Salem; Master Gordon Clark and Evelyn Clark, Braddock; Mrs. Zitta Fish, Douglas; Jessie Hoff, Mandan; F. Joseph Reessler, Mandan.

Can You Pass?

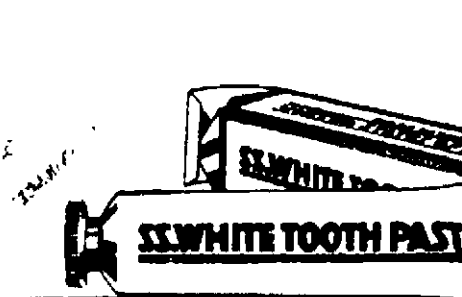

BAD teeth not only impair the marching and fighting efficiency of a soldier, but make him much more subject to infectious diseases.

Don't wait for a toothache to drive you to the dentist for by then damage is already done. Give a dentist a chance to prevent decay. That is the chief part of work.

Take your dentist's advice about the home care of the teeth. S. S. White Tooth Paste is made by the world's best know manufacturing company and embodies the latest findings of dental science.

BOB GROOM, ONE OF BASEBALL'S VETERANS, IMPROVES WITH AGE; MAY HAVE HIS BEST SEASON

BOB GROOM

By PAUL PURMAN.

Some pitchers go along season after season without attracting much attention until a glance over their records show that they have really been pitching remarkable ball without anyone knowing about it.

Usually their work has been overshadowed by some brilliant star on their club and their consistent work is lost sight of as a result.

Matthewson caused the really wonderful work of Red Ames to be forgotten and Ames has gone along for years without receiving the credit he really deserves.

Bob Groom has gone along in the American and Federal leagues for more than a decade for the same reason.

He was at Washington at a time when Washington meant Walter Johnson with a big "W" and a capital "J," and when Groom jumped to the St.

Louis Feds no particular attention was paid to it.

But Groom's work this year, when he has really passed the best years of his pitching career, as such careers are measured, deserves more than passing attention.

Groom, playing with a losing club, has won half his games, has pitched in more games than any other member of his club, except one and than any pitcher in the league with three exceptions.

In these games he has allowed less than 2.50 earned runs per game and has come through with one no-hit and several low-hit contests.

With the exception of 1916, he is pitching better ball than ever and along with Eddie Cicotte, Red Ames, Jack Coombs and a few others may be regarded as a direct refutation to the old-time baseball adage that a man's first years are his best.

INDIAN'S MONTHLY INCOME IS \$50,000

One of Uncle Sam's Wards Has Nearly \$800,000 Cash on Deposit in Banks.

OIL BRINGS GREAT WEALTH

Red Man Shows Little Interest in His Fortune and Seldom Draws More Than \$100 a Month for Expenses.

With nearly \$800,000 on deposit to his credit in the United States treasury and in a dozen or more banks, and with a monthly income of nearly \$50,000 derived from oil lands in Oklahoma which he owns, an income more than seven times that of the president of the United States, Jackson Barnett, sixty-three years old, a full-blood "incompetent" Creek Indian living near Henryetta, Okla., is the Rockefeller of the Indians in the United States.

Barnett sprang into prominence when Carl J. O'Hara, a leading banker and capitalist of Henryetta, Okla., guardian of the Indian, telegraphed to Senator Robert L. Owen of Oklahoma urging that steps be taken by the United States authorities to invest the greater part, if not all, of Barnett's cash capital in interest-bearing Liberty bonds.

The story of Barnett and his rise to wealth and national prominence is a romantic one. The son of a Creek chief, Barnett lived the life of a hunter of the plains, fishing and hunting and avoiding all contact with the white men who were slowly but surely encroaching upon and driving the Indians from their hunting grounds.

When Indian Territory became Oklahoma and the Creeks, Chickasaws, Choctaws, Seminoles and Chickasaws, the "Five Civilized Tribes," were allotted lands for farming purposes in the eastern section of Oklahoma, Barnett vigorously opposed any movement on the part of the government to improve his condition in life, but the government nevertheless proceeded to execute its plans.

Spurns Land Allotted to Him.

With other Indians of his tribe, Barnett was arbitrarily allotted a parcel of land in the district of Tulsa, which later was to become the famous Cushing oil fields. Barnett indignantly refused to accept the land, which nevertheless was allotted to him, he explaining that it was fit only for coyotes and jackrabbits to starve in, and in no wise suited to the requirements of a humble Indian whose sole desire was to be left alone so that he might hunt and fish and smoke at will.

One day about 1905, oil was discovered in the vicinity of Barnett's land and a few months later a company of Eastern capitalists applied to the department of the interior for a long-term lease of Barnett's allotment which it was discovered, fairly exuded rich oil throughout its length and breadth. In due time the lease was executed and by its terms Barnett ever since has received part of the proceeds of the sale of oil from the wells on his property, the money being deposited in national banks of Oklahoma to his credit.

Pays \$52,000 Income Tax.

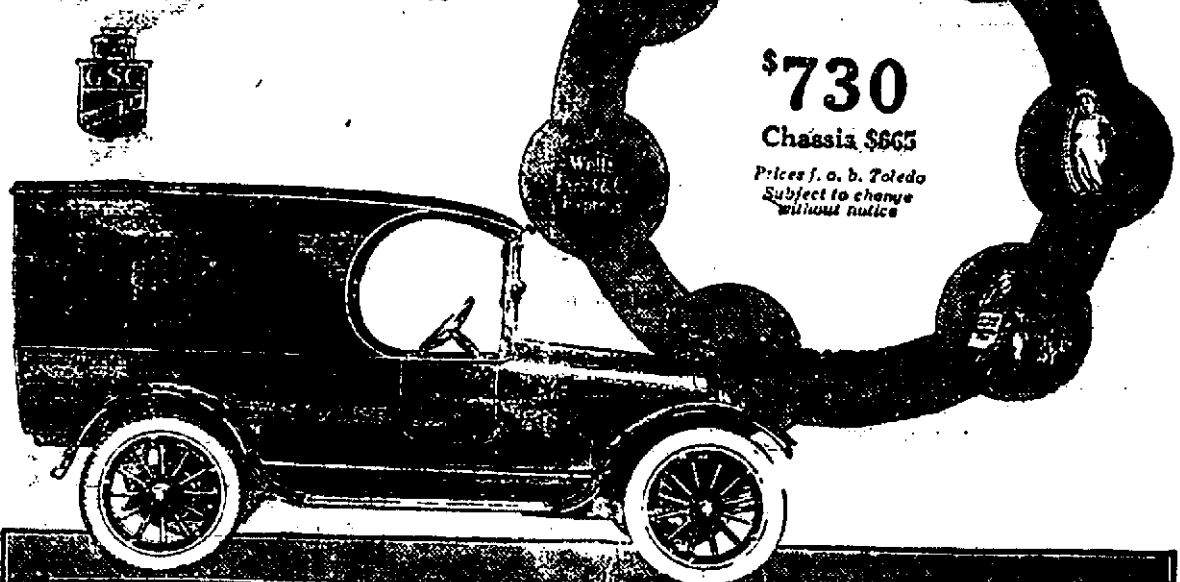

Reports to Secretary Lane recently showed that Barnett had \$755,883.03 deposited to his credit in various financial institutions. Of that sum \$115,000 was on deposit in state and private banks in Oklahoma drawing 4 per cent interest, \$456,400.74 in nine national banks, drawing 3 per cent, and \$184,482.32 in the United States treasury on which no interest is paid. These deposits are increasing at the rate of \$47,082.74 a month. Last year Barnett paid an income tax of \$52,000 to the government.

The least interested person in the disposition of these funds is Barnett himself. He seldom accepts more than \$100 a month of his income which is paid him by his guardian through Gabe E. Parker, the superintendent of the Five Civilized Tribes, but on several occasions he has accepted \$125.

They Are No Bar.

Though a man have a glass eye, a wooden leg and an artificial arm, he can run an automobile if it belongs to him, a magistrate complained in deprecating New York state law.

It's tough beating these subman. Barney Oldfield used one and gave Ralph De Palma a trimming.

They All Use Overlands

Leading concerns in practically every line of trade are users of Overland Delivery Wagons. Glance at the trade marks shown above

The first cost of a Delivery Wagon is not the most important cost.

Let us show you why 7,000 merchants chose Overlands.

LAHR MOTOR SALE CO., Dist.,
 Haggart Block, Bismarck, N. D.

Sport Gossip

Cleveland, O., June 28.—James Dunn, owner of the Cleveland Americans, is on the warpath because of rumors that he is to depose Manager Lee Fohl. Dunn denies that he is contemplating a shake-up.

"Fohl has done splendidly, and I have not considered any change in the management," Dunn said. "I suppose he has made mistakes; everybody makes them, but I do not blame him because we are down in the race."

"Some person who wishes to harm the Cleveland club started the story that I was planning a shake-up."

Chicago, June 28.—Cleveland players are vigorously protesting against the alleged "black ball," which they say, is being used by Eddie Cicotte, the pitching star of the Chicago Americans.

After being in play for a few minutes the ball, according to members of the Cleveland club, becomes so dark that it has the appearance of having been dipped into pitch. They allege that the ball is treated to a plug tobacco juice bath.

Detroit, Mich., June 28.—"Nig" Clark, former major league catcher, has applied for enlistment in the marine corps. Clark was told by the officer in charge of the local recruiting office that he probably would be accepted if he would undergo a slight operation. "Nig" agreed to do this.

Lake City, Ia., June 28.—Earl Cardoek, claimant of the heavyweight wrestling championship, will not engage in any matches for at least two months. Cardoek underwent an operation for the removal of his tonsils and also had some troublesome teeth extracted. He said that he had not been in good condition for several weeks, and that he is especially lacking in endurance.

East Lansing, Mich., June 28.—The department of athletics at the Michigan Agricultural college has decided to have a football eleven this fall. The training will be opened Sept. 11 and will be in charge of Chester Brewer, director of athletics, and Coach George Gauthier, a former M. A. C. star.

Chicago, June 28.—Baseball players of bygone days are to don uniforms again--this time for the Red Cross. The game will be played at the Chicago National league park July 21. Charles A. Comiskey, owner of the Chicago Americans, famous as a first base star; "Pop" Anson, a former manager of the Chicago Nationals, and a host of others have promised

to play. Comiskey will captain one of the teams.

Omaha, Neb., June 28.—Earl Smith, the Omaha star, who is burning up the Western league in hitting, is a happy baseball player. The reason is that he has become the father of twin boys. The physician said they looked like embryo outfielders. Smith was with the Chicago Nationals for a while last season.

Alma, Mich., June 28.—Two co-eds were among the athletes to receive sweaters and letters recently for prowess in sports at Alma college. Edna Ward of Cincinnati and Miss Ritter of New York city won their "A" for service on the tennis team. Fourteen letters were awarded to football men and eleven were given to members of the baseball team.

Chicago, June 28.—Jack Hess, the first baseman who established a world's record on the Pacific coast for hitting in consecutive games, and who last year played with the Chicago Americans, is now hitting at .429 clip in the ranks of the semi-professionals in this city. Hess refused to go to Columbus of the American association this spring when the Chicago White Sox released him, and entered the ranks of the semi-pros. He is second in the list of regular semi-pros here. In the twenty-one games he has played in he made nine hits and scored five runs. He has one stolen base to his credit. Hess is playing first base for the Magnets. The Magnets are members of the Chicago league.

Cleveland football player keeps in trim by reading gas meters in summer. He ought to be able to beat almost anything with that kind of training.

Honus Wagner made the only run Pittsburgh scored the other day. This is getting to be a habit for Honus. Well, Henry, the day is still waiting for you.

TV Cobb is still going back. He's only been hitting about .350 lately. If some of these ballplayers would spend more time trying to hit and less trying to figure out what kind of dope the pitcher is using on the ball they might get better results.

The Outbursts of Everett True By Condo

to promoting the welfare of the Indians.

In this connection it is interesting to remember that Indian schools, agencies, and projects are scattered throughout two-thirds of the area of the United States, and for the purpose of administration this territory has been divided into ten districts and an inspecting officer assigned to each. It is the duty of this officer to visit, at least twice in each year, every Indian school, reservation, irrigation project or other Indian activity in his district. He makes a thorough examination of office, school and field work. Helpful criticism and suggestions are given impartially where merited. The Indians are seen in their homes, at their work, and in their play, so that an intelligent transcript of real conditions can be made by the inspectors in their reports. As a result of this comprehensive plan it is the opinion of experts of the service that much of the dry rot infesting it has been eliminated, and cases where more heinous offenses were involved have mercilessly been dealt with.

While corruption and inefficiency may find its way into the rank and file of government employees, the greatest danger to the Indian lies in the greed of the white man for his land and money. Where a tribe has these a grater is sure to be in evidence. It is declared. He comes from every breed known to mankind, and in the past has despoiled the Indian with a ruthlessness unparalleled. Under the present system of dependable officers many of these schemes have been ferreted out and their promoters punished. It is the opinion of experts of the bureau that as long as the Indian has property, with no practical combative experience, so long will nefarious schemes against him be attempted.

PHTHISIS LABOR'S FOE

Causes Large Percentage of Deaths Among Male Workers.

Uncle Sam's Statistics Show Most Fatalities Among Women Due to Organic Diseases of Heart.

Based upon 91,280 deaths of male and 102,467 deaths of female industrial policyholders, fifteen years of age and over, as recorded in 1911, 1912 and 1913 by one life insurance company, tuberculosis caused the death of 20.5 per cent of the former and 14.4 per cent of the latter, while organic diseases of the heart were responsible for 12 per cent of the deaths of males and 14.8 per cent of the deaths of females. The average age of men dying from tuberculosis was 37.1 years and of women, 34.1 years. Of males the lowest average age at death, 31.1 years, was among those who died from typhoid fever, and of females the lowest average age at death, 23 years, was among those who died at childbirth. By occupation, the lowest average age at death was 38.5 years among bookkeepers and office assistants and the highest average age was 58.5 years among farmers and farm laborers.

These facts are brought out in a bulletin entitled "Cause of Death, by Occupation," a study made by Louis I. Dublin, and recently issued by Uncle Sam's bureau of census statistics.

Tuberculosis was responsible for the largest number of deaths among clerks, bookkeepers and office assistants, 35 per cent; compositors and printers, 34.1 per cent; gas fitters and steam fitters, 31.6 per cent; hushandmen and shoemakers, 29.2 per cent; teamsters, drivers and chauffeurs, 28.2 per cent;

HOUSES FOR RENT

FOR RENT—Modern, 5-room house, furnished. Until September 1; 413 Ave. A. Inquire Mrs. A. M. Leslie, 123 Fourth St. 6-21-17

FOR RENT—Four-room house; electric light and water; \$15 per month. Apply 321 5th St. 6-26-17

safoonkeepers and barbers, 26 per cent;

machinists, 25 per cent; cigar makers and tobacco workers, 24.1 per cent; textile mill workers, 22 per cent; iron molders, 21.9 per cent; painters, paperhangers and varnishers, 21.9 per cent; masons and bricklayers, 19 per cent; bakers, 18.8 per cent; laborers, 16.4 per cent; blacksmiths, 14 per cent. Accidental violence was responsible for the largest number of deaths among railway engineers and trainmen, 42.3 per cent; railway track and yard workers, 20.8 per cent; and coal miners, 20.4 per cent; while the largest number of farmers and farm laborers, 16.4 per cent died from organic diseases of the heart, due to the facts that the prevalence of these diseases increases with age and that the average age at death of those in this group is higher than any other group.

Similarly, among women the largest number of housewives and housekeepers, 15.2 per cent, died from organic diseases of the heart for the same reason stated above, while tuberculosis took the largest proportion of clerks, bookkeepers and office assistants, 42.4 per cent; clerks and saleswomen, 38.7 per cent; dressmakers and garment workers, 27.8 per cent; and domestic servants, 25.9 per cent. The average age at death was 26.1 years among clerks, bookkeepers and office assistants, and 33.3 years among housewives and housekeepers.

The statistics indicate that respiratory diseases are prominent where the industrial worker is exposed to colds, drafts and dampness, as among masons and bricklayers, or to violent changes of temperature, as among teamsters, drivers and chauffeurs. Organic diseases of the heart have a high proportional frequency in cases where the work is heavy and the cardiac powers are overtaxed, as among iron molders. Suicide is frequent where depressing influences are present as among bakers and cigar makers. Typhoid fever is high where questionable water supplies are used, as among engineers and trainmen, farmers, iron molders and laborers.

Of 2,380 antiseptics imported into Java in 1916, 221 came from the United States, says Uncle Sam.

Linseed Oil Kills Germs.
Linseed oil, used in linoleum and wall papers, possesses a great germicidal value, according to a French scientist, who says that the material kills many noxious germs.

Incubation—Ancient Days.
The earliest mention of dates back to the early Egyptians, who used ovens heated with fermenting manure.

Great Men.
Great men stand like solitary towers in the city of life—Longfellow

DESPONDENT OVER
WORLD WAR FARMER
HANGS HIMSELF

Jamestown, N. D., June 28.—The despondent because of brooding over the world war and fear of conscription, Martin Johnson, 23, a farm laborer employed on the Phillip Wellman farm near Courtenay, committed suicide last night by hanging himself with a leather strap from a harness in Wellman's barn.

Coroner Deuy of Jamestown was called and pronounced it a plain suicide case.

COCCHI READY
TO PAY PENALTY
FOR CRUGER CRIME

Bologna, Italy, June 28.—I feel my self acquitted morally, but I am ready to undergo the legal penalty of my country," Alfredo Cocchi, slayer of Ruth Cruger, is quoted as saying to the interrogating judge at the last questioning of the prisoner.

Cocchi, however, according to reliable authority, sent out this message yesterday to a friend:

"I am guilty and I want to pay the penalty. Why spend your money on a lawyer? I won't see him."

There is no doubt that Cocchi has a horror of a sentence to death by the American electric chair. This abhorrence is shared by all his friends, and they, with the prisoner's relations, are starting a fund to fight proceedings for his extradition.

Meanwhile, his mental condition is under consideration.

"I am not prepared to say whether Cocchi is insane or a nervous perversity," said Professor Augusto Murri, Italy's famous nerve specialist. "Although he has spoken of suicide, he hasn't the courage to commit it or to make a serious effort to escape."

An examination of Cocchi's record here indicates that before he left for America he was considered an unbalanced adventurer with anarchistic tendencies. He quit Italy for the United States after becoming a bankrupt.

WHITE SLAVE AGENT.
New York, June 28.—In connection with the investigation of the methods by the police in attempting to catch the slayer of Ruth Cruger, it was said today evidence of importance had been discovered by Miss Grace Humiston, whose efforts led to the finding of the body, which bears out her contention that Alfred Cocchi, confessed murderer, was a member of a white slave ring, operating here and in Mexico.

READY TO PAY UP TO
\$500,000 FOR OLD
FLIVVER—IS HE SANE?

Because he rang up the village barber at Lemmon at 5 o'clock in the morning to offer him any sum up to \$500,000 cash for his old driver car, Lemmon decided that William Corcoran of Bismarck would be better off in his home town, where such munificence is more appreciated, and William was brought into the city.

To the Wife of
One Who Drinks

I have an important confidential message for you. It will come in a plain envelope. How to conquer the liquor habit in three days and make home happy. Wonderful, safe, lasting, reliable, inexpensive method, guaranteed. Write to Edw J Woods, 1423 N. Station E, New York, N. Y. Show this to others.

CABINET WIVES JOIN
AGAINST WASTE ARMY

Today The Tribune publishes the pledge cards of Mrs. Robert Lansing and Mrs. W. G. McAdoo. These two are the last of all the wives of the members of the president's cabinet, with the exception of Mrs. Wilson, wife of Secretary of Labor W. B. Wilson, to join the Woman's Army Against Waste. Mrs. Wilson is ill and has been for a number of years past, and is unable to take on any responsibilities of the war, writes the secretary of labor, or to join the Army Against Waste.

This morning by John Rooks, deputy sheriff of Perkins county, South Dakota, Mr. Corcoran, whose family resides here, seems to be normal generally. His only hallucination is that he is possessed of unlimited wealth which he stands ready to invest in a jitney bus. Coming to Bismarck with Deputy Rooks, Mr. Corcoran insisted on spending all the money, and he and his guard fared sumptuously.

SENATE WANTS REASON
WHY PAPER BARONS ARE
NOT UNDER CONTROL

Washington, June 28.—The Reed resolution, calling on the federal trade commission to inform the senate why it has not ordered print paper manufacturers to desist from "illegal practices and exorbitant charges," was passed today by the senate, without objection.

Special added attraction, "Zeppelin attack on New York." At the Orpheum tonight.

AL. G. BARNES COMING AGAIN

To Bismarck with His Wild Animal Circus.

There are always two holidays of the year most sacred to the heart of a child—Christmas and circus day. Christmas is past, but the circus season is here. The contract man for the Al G. Barnes wild animal circus, which has endeared itself to every citizen in Bismarck from its former visits which have thrilled young and old with a program of purest gold, comprised of over 1,000 wild and domestic animals in circus stunts is in town.

"New from the ground up," says Mr. Pennock, "with 500 or more people and a program full of 'pep' and 'ginger' with many new animals in rare circus acts, a gay, glittering galaxy of untold wonders, a big free street parade, a spectacular pageant by the entire cast of animals and people, hundreds of newly decorated, gilded, red and yellow wagons, in all a myriad of wonders too numerous to mention."

Due arrangements were made for the show to exhibit here Saturday, July 21, grounds were contracted for; parade arranged for, billboard space secured, water, and all things necessary to putting Bismarck in the "Wilds of Africa" for that day were completed.

Advertising car No. 1 will arrive soon and Bismarck will receive its circus "dolling up," others of the big advance will follow to see that everybody in town and vicinity do not miss the opportunity to frolic on that date, renew their knowledge in natural history, drink pink lemonade as only a circus can fix it, feed the beloved elephant peanuts and delight in the

"shivery shivers" that the roar of lions, tigers and leopards always give to us.

Douglas Fairbanks doesn't move a muscle for nearly 200 feet of film in his latest Triangle Fine Arts play, "American Aristocracy." He has just been hit on the head with a piece of lead pipe. At the Orpheum theatre tonight.

DR. EASTMAN ATTENDS
ANNUAL CONFERENCE OF
CATHOLIC RED SKINS

St. Yates, N. D., June 28.—Unusual interest attaches to the annual conference of Catholic Indians of the northwest owing to the presence here of Dr. Charles A. Eastman, Indian educator and author. Prominent in-

dian prelates and lay delegates are from North and South Dakota, Montana and here from all of the reservations in adjoining states.

FEDERAL TIRES

Some tires have tough and thick treads, others have a heavy and strong carcass.

Only Federal Tires combine splendid tread and carcass features with Double-Cable-Base Construction. No others have four strong steel cables built into the base to hold them to the rim under severest service strains.

Federals therefore are "Extra Service" Tires, and public opinion says they deserve the name.
